

# LAKSHYA PORWAL

## Sr. Data Engineer

Pune, MH, India | [guplakshya@gmail.com](mailto:guplakshya@gmail.com) | [www.linkedin.com/in/lakshya-porwal](https://www.linkedin.com/in/lakshya-porwal) | +91-9406861565

## SKILLS

---

**Programming & Data Tools:** SQL, Python, Spark, PySpark, Apache Airflow, Delta Lake, Denodo

**Cloud & ETL:** Azure Cloud, Azure Databricks, Azure Data Factory, Azure Event Hub, Data Fabric, API, ETL Development

**Data Management:** Data Engineering, Data Modeling, Data Warehousing, Data Analysis, Advanced Excel

**Collaboration Tools:** Azure DevOps, Git, Bitbucket, JIRA, Miro

**Soft Skills:** Leadership, Teamwork, Problem Solving, Communication, Critical Thinking, Decision Making

## EXPERIENCE

---

**ZS Associates, Pune, MH, India** (*Full-time*)

**Jul 2021 - Present**

**Sr. Data Engineer**

- **Architected and implemented a modular Data Quality framework** on Databricks using PySpark and SQL, improving data integrity and reducing data issues by **40%** across high-volume client pipelines.
- **Implemented event-driven architecture** using Azure Event Hub & Databricks to capture, process, & publish near real-time data streams across producer-consumer domains, enhancing system responsiveness.
- **Built scalable ETL pipelines** using Azure Data Factory and Databricks to process **500M+ records daily**, improving data processing time by **30%** and enabling SLA-driven reporting.
- **Integrated CI/CD pipelines** in Azure DevOps for automated validation and deployment of data workflows, reducing release errors and accelerating delivery by **25%**.
- **Led a 3-member data engineering team**, owning solution design, stakeholder communication, sprint planning, and delivery for high-impact ETL and reporting pipelines.

**Data Engineer/Analyst**

- **Owned** post-production support workstream for data applications, resolving critical issues and client escalations with minimal turnaround, ensuring release stability.
- **Transformed** critical client deliverable reports by automating and optimizing processes with Python and Apache Airflow, resulting in an impressive **annual savings of over 200 hours of manual work**.
- **Re-engineered** business workflows in PySpark and SQL to reduce manual intervention by 30%, improving pipeline reliability and reducing support effort.
- **Authored internal architecture** and SOP documentation and led onboarding for new hires — reducing ramp-up time and knowledge gaps across the team.

**TEMENOS India Pvt Ltd, Chennai, TN, India** (*Internship*)

**Feb 2021 - Jul 2021**

**Software Engineer**

- Devised and deployed multiple programs utilizing the in-house core application T24, resulting in **improved system functionality and streamlined processes**.
- Designed and executed the integration of a country-specific Model Bank (LATAM), leading to a successful deployment and widespread adoption by the business.

## EDUCATION

---

**Vellore Institute of Technology, Vellore, TN, India**

**Jul 2021**

Bachelor of Technology, Electronics & Instrumentation Engineering

- Achieved departmental rank 5 as a **Merit Scholar**, showcasing outstanding academic performance.
- Honored with the **G.D. Naidu Young Scientist Award** for exceptional contributions.
